

FleetCommander Online

- FleetCommander™ is an ad hoc reporting and analysis tool for Fleet Managers.
- It was developed in response to Fleet Managers requesting more information.
- The transaction data in FleetCommander is presented directly from the oil companies, the point of sale equipment, the attendant on duty, etc.
- In FleetCommander, all the product detail is presented separately; multiple products sold on the same transaction are identified with a common transaction number.
- Maintain -Vehicle cards, driver cards and PINs.
- Transaction pull
- Pay bills and view statements
- Create customized management reports
